

ONE-CLICK CONTROL IN THE CAB

One-click to inflate/deflate four tires simultaneously inside the cab.
Real-time pressure shown on the control panel. Automatically stops and alerts when target pressure is reached.
Can preset your desired tire pressure.

190L/MIN POWERFUL AIRFLOW

Delivers 190 liters per minute.
Quick refills for off-road adventures and emergencies.

-45°C ~ 80°C TEMPERATURE RESISTANCE + IP68

Ready for extreme cold, heat, rain, snow, and mud.

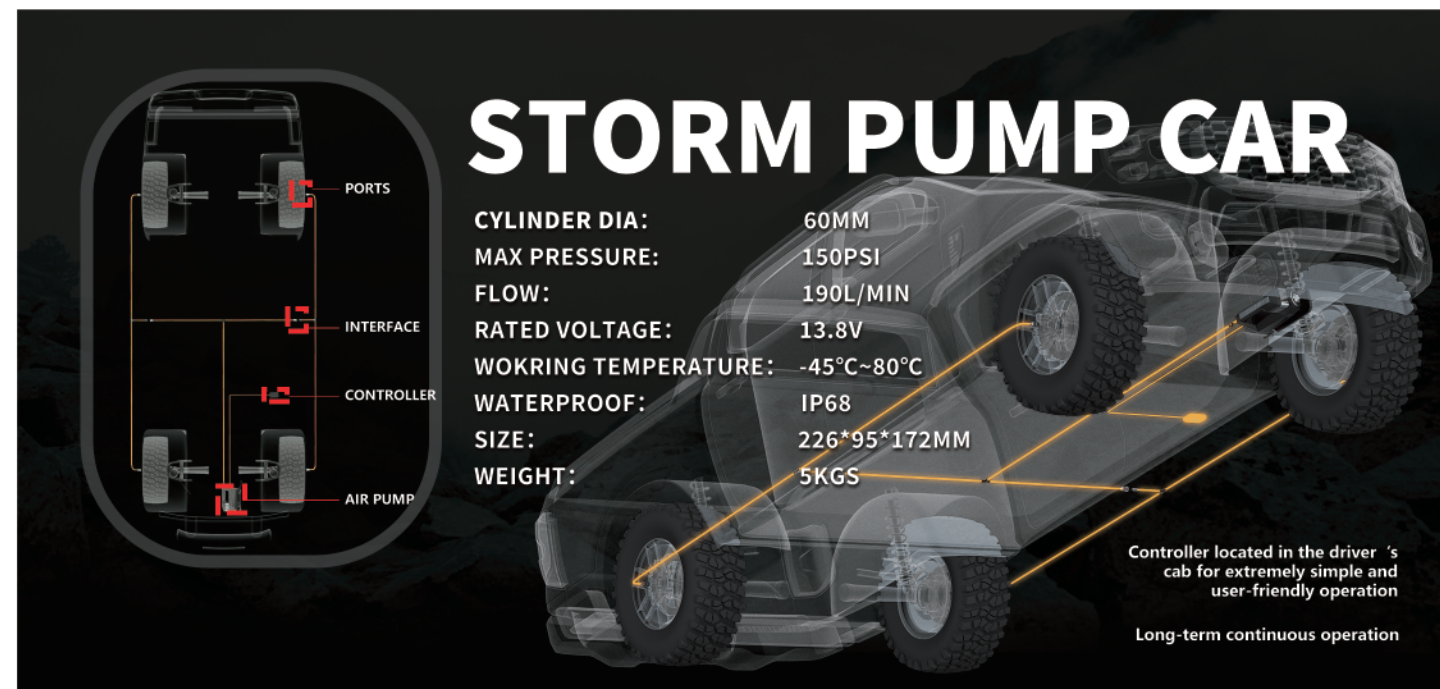

RELOCATABLE AIR FILTER

Flexible positioning, away from the undercarriage to prevent blockage by mud.
Filters sand & moisture. Anti-corrosion. Built for deserts, water crossings, and extreme off-road conditions.

CUSTOM, HIDDEN INSTALLATION

Custom air tube layout methods and installation brackets for different vehicles.
Installs under the chassis /cargo bed or other suitable location.

T-MAX
THINK MAX, TERRAIN MAX

Copyright T-MAX (HANGZHOU) TECHNOLOGY CO.,LTD All rights reserved

WIRELESS POWERING, PORTABLE TO
USE ANY TIME, ANY WHERE

Do not need to connect to vehicle battery,
save cable connection to inflate easily.

ONE-CLICK SETTING, EASY TO OPERATE

Intelligent one-click inflation and deflation function,
users can easily set the required air pressure with
simple operation, and the system automatically completes
the inflation and deflation process.

EFFICIENT LITHIUM BATTERY,
MULTIFUNCTIONAL INTEGRATED DESIGN

With a 0.4 degree high-capacity lithium battery, it can
inflate up to 16 tires with just one charge; At the same
time, it also has the function of a portable power bank,
which can provide emergency charging for devices such
as mobile phones, computer, truly achieving multi-purpose
use and meeting the diverse needs of outdoor use

EFFICIENT INFLATION AND DEFLATION,
QUICK WORKING, REDUCING WAIT TIME.

Powerful motor, stable output, fast inflation
and deflation, efficiency increased 30%.

STORM MAX PUMP

TAIL FLAME ATMOSPHERE LAMP, FULL OF DYNAMISM

During the inflation process, the built-in rocket tail flame
ambient light of the device lights up, creating a dynamic visual
effect that resembles the energy jet in future technology.
This design not only enhances the fashion sense of the product,
but also makes the inflation process more interesting, attracting
the attention of car owners and adding fun to use.

SCIENCE FICTION DESIGN, INNOVATIVE
VEHICLE EXTERIOR DISPLAY

The innovative design of vehicle external display function
integrates futuristic sci-fi styling, breaks tradition, and
endows the product with unique visual impact. Its
avant-garde and fashionable design not only enhances
the product's recognition, but also makes it a trendy
accessory for car owners to showcase their personality
and taste, combining functionality and aesthetics,
bringing a new visual experience.

CYLINDER DIA:	60MM
MAX PRESSURE:	150PSI
FLOW:	220L/MIN
RATED VOLTAGE:	48V
WORKING TEMPERATURE:	-45°C-65°C
WATERPROOF:	IP68
BATTERY:	48V/4AH
SIZE:	350*150*285MM
WEIGHT:	10KG

MINIMUM PRESSURE:	8PSI
FLOW:	300L/MIN
MAX DEFLATION FLOW:	80L/MIN

STORM PUMP

CYLINDER DIA:	60MM
MAX PRESSURE:	150PSI
FLOW:	190L/MIN
RATED VOLTAGE:	13.8V
WORKING TEMPERATURE:	-45°C~ 80°C
WATERPROOF:	IP68
SIZE:	310*120*230MM
N.W.:	8.45KGS
G.W.:	9.61KGS

- One-click to inflate. Automatically stops and alerts when target pressure is reached.
- Real-time pressure shown on the control panel. Can preset your desired tire pressure. 3 units (KPa, PSI, Bar) switchable.
- 190L/MIN. High efficiency, fast inflation.
- Big metal radiator grill. Supports inflating 12 off-road tires (265/ 70R18) continuously.
- Compact size for portability.
- Stylish black/silver finish.
